MR. BOWMAN TO SING.

Two Accomplished Singers, a Violinist and Pianist, will Give a Most Beautiful Program.

Mr. L. A. Bowman of Chicago will sing at the Opera House on the evening of the 25th of April at a concert to be given by the ladies of the Episcopal Church. This will be welcome news to all who heard Mr. Bowman's beautiful voice when he sang at the Baptist and Presbyterian Churches three weeks ago.

Mr. Bowman, it will be recalled, came South with the Company which was giving the reproduction of the old Morality play, "Everyman" and appeared in the role of "Good Fellowship." He has for several weeks past been engaged to sing at the First Baptist and Episcopal Churches in Spartanburg but at the close of the special services, now being held in that city, he will come to Laurens as the guest of Mr. Luther Roper.

Mr. Bowman has a wonderful voice and the opportunity to hear him is great good fortune. He will sing next season in grand opera in New York.

Mrs. W. E. Lucas will have charge of the program, a guarantee of course of its musical excellence and Miss Clifford of Union, an accomplished violinist has kindly consented to play. Miss Clifford has studied violin with the best teachers in the North and is very talented.

The price of admission will be 50 cents for grown people, 25 cents for children.

This opportunity to hear him should not be allowed to pass.

Entertain the Veterans.

We have observed that the local Chapters of the Daughters of the Confederacy in several of the small cities of S. C. are arranging to entertain the Veterans on "Memorial Day". This was done in a small way by the ladies of Laurens last May, and they expect to make it a much more elaborate affair this year. It would be a pleasant tribute to the Veterans if this should become a custom in every county in the State.

Laurens Expense Account.

The annual statement of the city of Laurens, prepared by that "Watch Dog" of the city treasury, Clerk L. G. Balle and published in last week's ADVERTISER, shows that the city has grown considerably in both income and expenses.

An item of expense which struck THE ADVERTISER with peculiar force was "Stationery \$0.90" and yet there were \$51,728.12 disbursements. In this day and generation can any town or firm match it? Hurrah for Mr. Balle! He don't want the city's money.

SERIOUS STOMACH TROUBLE CURED.

I was troubled with a distress in my stomach, sour stomach and vomiting spells, and can truthfully say that Chamberlain's Stomach and Liver Tablets cured me.—Mrs. P. Y. Williams, Laingsburg, Mich. These tablets are guaranteed to cure every case of stomach trouble of this character. For sale by Laurens Drug Co. and Dr. B. F. Posey.

Tent Meeting Closes.

The tent meeting which is being conducted by the Rev. H. C. Morrison will close to-day. Much interest is being manifested and the meeting is a great success.

The following ministers have been in attendance on the meeting: Revs. J. M. Pike of Columbia, P. M. B. Kinard of Greenwood Co., D. R. Brown of Spartanburg Co., D. Pot Boyd of Fountain Inn, Fletcher Anderson of Gray Court, J. A. Martin of Cross Hill, Rev. Hopper of Maridian, Miss., and Rev. N. J. Holmes.

ABOUT RHEUMATISM.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured, is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle. For sale by Laurens Drug Co. and Dr. B. F. Posey.

Mr. Reed Miller Visits Laurens.

Under the management of the King's Daughters Mr. Reed Miller of New York sang at the Opera house last Wednesday evening. Mr. Miller was welcomed by an audience of old friends. He is an artist and sings tenor deliciously. Miss Lillie Strickland of Anderson who played his accompaniments and gave some beautiful selections on the piano of her own composition, is a cousin of Mr. Miller. She is very talented and as charming as talented. While in the city she was the guest of Mrs. W. E. Lucas.

After the concert the German Club gave an informal dance at Fowler's hall, which was a sort of reunion of old chums in honor of Mr. Miller, who was once a Laurens Graded School boy.

Letter From Clemson.

In reference to the report of the increased use of fertilizers, President Smith received the following from H. M. Stackhouse, secretary of the fertilizer department, Clemson Agricultural College, who has charge of the tag department. This letter is in response to the inquiry made by him, in reference to the large sale of tags.

"Clemson College, S. C.
March 23, 1905.

Hon. E. D. Smith,
Magnolia, S. C.

Dear Sir: I see interviews with you in the papers as to the amount of the tag tax along the line of your 'phone conversation in Columbia a few days ago, but the line was busy at the time, and your voice very indistinct, was not sure I heard you correctly, and only press of work has hindered this writing earlier. Am getting frequent inquiries from boards of trade, chambers of commerce, etc., of other states as to the amount, but did not answer as I believed it for speculative purposes. However, the news men get reports from State treasurer and incorrect reports sometimes get in the newspapers.

The amount, however is not less than stated and about the same as last year; we think at least \$10,000 of this comes from increased sales for cotton seed meal, which for 'stock food' pays the tax this season for the first time. Then the salesmen and manufacturers of fertilizers say that anticipating orders, they supply themselves with tags, knowing that if not needed they can be redeemed after Nov. 1st, and they admit aggregate sales to date considerably less than last year. So you correctly say that these sales are not reliable indication of the amount of fertilizers really used any given season. In the effort to reduce cotton crop, which means so much for the South, I should be sorry to think the farmers would not 'stand pat' on it or let narrow selfish considerations of supposed present gain wreck their own and best interests of entire country for years to come.

Yours very truly,
H. M. STACKHOUSE."

Ora News Items.

Ora, S. C., April 8, 1905.—Mr. and Mrs. L. P. Blakely are the proud parents of a fine daughter.

Mr. Niles A. Craig of Greenwood, made a short visit to his mother, Mrs. Jane Craig last week.

Miss Frances Moffatt the assistant teacher of the Ora Academy, came home from Greenville Monday, where she had been spending a few days.

While the fine weather lasted "fishing" was a popular sport. The school children "ran away" upon a fishing expedition to Warrior Creek Monday as the first day of April was not a school day. They are beginning to prepare for the closing exercises of school.

Our farmers have been extremely busy for the past month, some of them ploughing not only horses and mules but oxen.

Dr. and Mrs. S. F. Blakely were in Laurens Monday.

Occasionally the quiet people of Ora are startled by the shrill whistle of Mr. Mack Blakely's engine announcing that there is some cotton to gin.

Captain and Miss Lizzie McClintock were in Laurens Thursday.

A good deal of excitement was caused by the appearance of a mad dog in town early Thursday morning, several dogs were bitten before the dangerous brute was killed, our thanks are due to Master Hall Fleming and a colored man for this service.

Miss Rosa Bailey of Clinton, is the guest of Mrs. Samuel Fleming.

A goodly number of our inhabitants attended service at Warrior Creek Church last Fourth Sunday, as Rev. B. H. Grier was in Abbeville. He and his little daughter visited Due West while he was away.

Communion services will be conducted in the Presbyterian Church to-morrow by the Pastor, Rev. B. P. Reid. There will be no service in the A. R. P. Church as Rev. B. H. Grier is in Doraville, Ga., attending the meeting of the Second Presbytery of the Associate Reform Church.

The past week has been splendid for the Hub's big sale, cool and no dust and plenty of goods. From the crowds of people who attended it would seem as if nothing would be left for the second week but there is just the same.

Trolley Cars for Laurens.

Mr. Thomas F. Barrett of New York was in the city on Thursday with Mr. J. F. Jacobs of Clinton. Mr. Barrett represents a large Trolley Construction Company and is going over the proposed line which is being agitated by Mr. Jacobs and which is to incorporate Clinton, Laurens, Union and Spartanburg and intermediate towns.

On Wednesday Mr. Barrett went with Mr. Jacobs over the proposed line on this side of the Enoree and inspected the various falls on the river; from here they proceeded to Spartanburg, Union and points on the other side of the Enoree.

Mr. Barrett was taken in charge while here by Messrs. Richey, Cooper and Fleming and shown over the city. He expressed himself as much pleased by what he saw, and while not disposed to talk about his plans it is evident to those who met him that he means business and is not here on a pleasure trip. Of course he will expect the co-operation of the people directly interested along the line, but it is safe to say that if in his judgment the line will pay it will be built.

Our Rocky Diet.

All Americans have indigestion. Certain baking powders are thirty per cent ground rock. That is what we eat. Diseased beef gives us something worse than indigestion. Ever peas have copper coloring. Living on poison cannot strengthen us as a nation. When we quite realize it, the Senate and our State Legislatures may be forced to act. It is agreeable to get on in the world, and there is more profit in poisoned than in genuine food. If the Beef Trust fulfilled the laws of hygiene, perhaps it would be deprived of even that paltry two per cent. "So long," says Mr. Ghent, "as gelatine, timothy seed, and aniline remain at their present low prices, the supply of red raspberry jam is likely to be equal to all demands," and he quotes Tenneyson aptly:

"Chalk and alum and plaster are sold to the poor for bread."

And the spirit of murder works in the very means of life."

If all the farms in Ohio had maple orchards, they probably could not, in the opinion of the Dairy and Food Commissioner, supply the so-called maple sugar sold in that State. Most lemon extracts are made from coal-tar dyes. Butter is made over, into temporary salability, from what the Ohio reports call "stale, rancid, dirty and unsalable butter in various degrees of putrefaction." Not one sample out of fifty analyzed in Ohio, in 1899, met the standard butter tests. Poisoned drugs are administered at the bedside. Adulterated milk furnishes the youthful body strength. At the annual meeting of the National Consumers League, about three weeks ago, it was pointed out that not only is flour frequently adulterated, but there are two mills, one in Ohio and one in Kansas, which turn out a certain grade of Indian corn flour used only to adulterate wheat flour. Adulteration and poison are a large part of the sustenance of every stage of life and every class. How long shall we endure it?—Collier's for April.

WHAT IS CATARRH?

Hymecol Cures this Common and Disagreeable Disease

Hymecol cures catarrh by the simple method of breathing it into the passages and lungs. It kills the germs of the catarrhal poison, heals and soothes the irritated mucous membrane, enters the blood with the oxygen and kills the germs present there, effectually driving this disease from the system.

If you have any of the following symptoms, catarrhal germs are at work somewhere in the mucous membrane of the nose, throat, bronchial tubes or tissues of the throat:

Offensive breath, dryness of the nose, pain across the eyes, pain in back of the head, tendency to take cold, burning pain in the throat, hawking to clear the throat, pain in the chest, a cough, stitch in side, loss of flesh, variable in appetite, low spirited at times, raising of frothy mucus, expectorating yellow matter, difficulty in breathing, frequently sneezing, huskiness of voice, discharge from the nose, stoppage of the nose at night, aching of the body, drooping in the throat, mouth open while sleeping, tickling back of the palate, formation of crusts in the nose, dryness of the throat in the morning, loss of strength, spasms of coughing, cough short and hacking, rough, worse nights and mornings, loss of vital force, a feeling of tightness across the upper part of the chest.

Hymecol will cure the disease, destroy activity of all germs, life in the respiratory organs, enrich and purify the blood, with additional ozone, and after a few days use of this treatment the majority of these symptoms will have disappeared in a few weeks the cure will be complete.

Catarrh or catarrhal colds cannot exist when Hymecol is used. This is a strong statement, but Laurens Drug Co. emphasize it by agreeing to refund your money if Hymecol does not cure.

NAVAL BATTLE

NOW EMINENT.

Russian Admiral Out Wits the Japanese.

PEACE PROSPECTS.

Much Speculation as to the Probable Outcome of Rojestvensky's Brilliant Move.

Within the last few days the war situation in the Far East has become more interesting. Just when the world was speculating as to how the Russian Fleet would ever reach Eastern waters and trying to pick a route for Admiral Rojestvensky, that gentleman much to the surprise of everybody and more particularly to the Japanese, slips through the Straits of Malacca and is into the China Sea.

This was the shortest and most direct route to take but for that very reason the Japanese failed to guard the Strait.

"There is reason to believe that Vice Admiral Rojestvensky's entrance into the China Sea has been followed by orders for the cruisers Gromoboi, Rossia and Bogatry, which have been ready for some time at Vladivostok, to put to sea. Whether it is the intention to send them south immediately or to hold them in the vicinity of Vladivostok is not known. Their appearance outside the roadstead of Vladivostok would constitute a potential threat against Admiral Togo's rear, which will compel the retention in or despatch of a number of heavy fighting ships to Japanese waters. Thus Admiral Togo seems to be virtually placed between two fires.

The peace influences in the Government of this favorable strategic position presents the psychological moment for offering officially the olive branch to Japan, reasoning that no matter how confident the Japanese Government may be of Admiral Togo's victory, it will not overlook the possibility of defeat or fail to appreciate the complete disaster which would follow the transfer of the mastery of the sea to Russia. With so much depending upon the issue, they argue, both countries have mutual interests in avoiding an actual test, and it is not impossible, therefore, that a new movement in the direction of peace may come, just as the world expects to hear the call to quarters for the greatest naval battle of modern times. Certainly the spirits of the war party have been greatly raised by Rojestvensky's success in penetrating to the China Sea; and the prospects of a naval battle, even with the odds against a Russian victory which would change the entire complexion of the situation, has aroused something like a flash of enthusiasm in many Russian breasts.

Some naval officers express the opinion that Rojestvensky, having now safely navigated the straits, instead of sailing north to meet the Japanese can afford to calmly await Vice Admiral Nebogotoff with his division of the squadron, who could arrive there in three weeks.

The Russian admiralty on Sunday received a long dispatch from Singapore, but no intimation as to its contents has been given to the newspapers. The papers on Sunday morning printed Singapore dispatches without comment, the Soviet being the only exception. This paper views the news from Rojestvensky as an auspicious prelude to a decisive battle, "which may show that over Rojestvensky still shines the happy star which helped him, when a lieutenant, to save the fragile Vesta in an unequal conflict with a Turkish battle ship."

The Soviet expresses the hope that Rojestvensky is destined to turn the tables, and that even in case of defeat some of his vessels will be able to break through and reach the Japanese sea.

It's the little colds that grow into big colds; the big colds that end in consumption and death. Watch the little colds. Dr. Woods Norway Pine Syrup.
